How is Middle East Monitor different from press clipping services?

They must know in advance what program or segment you want to tape

They assign a staff member to watch, record & summarize the program

They email you the video clip

We record & monitor 500+ TV channels & radio stations 24/7

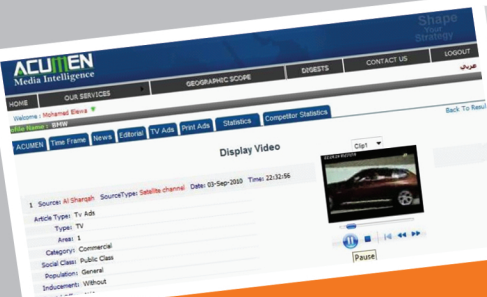

We have human indexing & tagging

We store 12,000 hours of TV broadcast video per day in our in-house data center and backed up in offsite storage

We provide client video clips on a secure, customized intranet portal or higher resolution via FTP

Cairo . Dubai . Washington DC
